

Claims

- [c1] 1.A device for pasting wallpaper, comprising:
 - a main body member;
 - a means for receiving a wallpaper roll, disposed on said main body member;
 - a first vertical member for containing adhesive, disposed within said main body member; and
 - a second vertical member for containing adhesive, disposed within said main body member.
- [c2] 2.The device of claim 1, further comprising a counter in communication with said main body member.
- [c3] 3.The device of claim 1, further comprising adjustment pieces in communication with said first vertical member for containing adhesive.
- [c4] 4.The device of claim 1, further comprising adjustment pieces in communication with said second vertical member for containing adhesive.

[c5] 5.The device of claim 1, further comprising a workbench disposed underneath said main body member.
